TrustZone Face Recognition

Shivam Shekhar (ss6960)

…

Ritwik Goel (rg3546)

Estimated Total Hours: 10

Plans (Past Week)

- Implement the Facial Recognition Algorithm in the TrustZone instead of Normal World

What Actually Happened

Work completed:

- Worked on the Facial Recognition wrapper for the trusted application.
- Completed the Read/Write using secure storage in OPTEE

Major challenges+roadblocks:

- Integration of the TZ Application with the mobile application.

Attribution: Global Platform API

Plans (Next Week)

- Complete the face recognition wrapper and integrate with the TZ Application
- Send data across both the apps (Integration)

Summary/Overall Progress

- Worked on the Facial Recognition wrapper for the TZ Application.
- Completed the Read/Write using secure storage in OPTEE
